# WEATHER OF CONCERN

## Weather of Concern

### Northern California:

- A series of winter storms will produce unsettled conditions through the upcoming week.
- This first storm is bringing gusty winds, rain, and snow through today.
- A colder storm Thursday into Saturday will produce additional periods of heavy snow in the Sierra with some snow accumulation also possible for the lower elevations of California and Nevada.
- Be prepared for significant travel delays over the Sierra and northeastern California, especially during the overnight periods when snow will accumulate efficiently on road surfaces.
- Although we may see some snow by Wednesday morning for western Nevada, the bulk of the snow accumulation is forecast to occur Thursday night into Friday.

### Active Weather Warnings, Watches and Advisories by County:

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

# Key Points

3/15-21

## Thursday-Friday

- Strong gusty winds far northern/northeastern CA and Sierra crest
- Rain/snow impacts for travel across N./Cntl CA., especially Sierra passes

## Saturday-Monday

- No significant impacts expected, but some continued showers across the state Sat-Mon

## Tuesday-Wednesday

- Wetter pattern moves in again with chances for more mountain snowfall impacts and valley rains.
- Southern CA recent burn scars may have increased chances for higher rainfall rates and localized debris flow impacts

# California OES Impact Threat Matrix

## Mar 15-21, 2018

DAY/THREAT	THU	FRI	SAT	SUN	MON	TUE	WED
Fire Weather							
Damaging Wind	N CA, Sierra, S CA Deserts				Nrn & C Coast	Central Valley	Central Valley
Extreme Cold							
Winter Travel	N CA, Sierra Nevada	Sierra Nevada	Sierra Nevada			Sierra Nevada	Sierra Nevada
Flash Flooding/ Debris Flows	Recent Burn Scars	Recent Burn Scars	Recent Burn Scars			SoCal Burn Scars	SoCal Burn Scars
River Flooding							
Severe T-storms							
Heat Impacts							

	High Threat
	Moderate Threat
	Slight Threat
	No Discernible Threat

**Days 1-2 Weather Hazards**  
**Valid: Thursday – Friday**

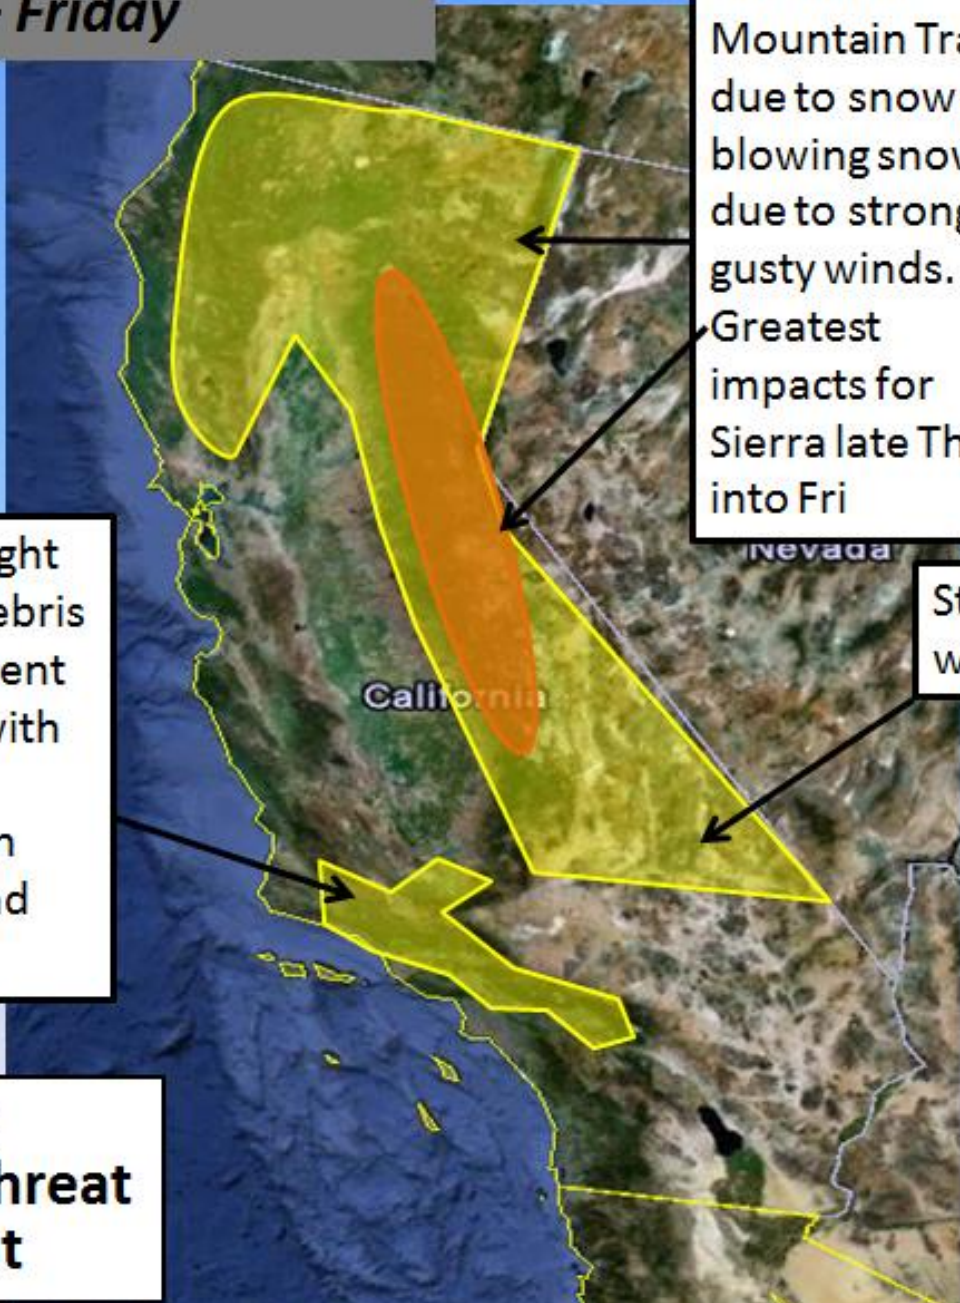

Localized slight threat for debris flows on recent burn scars with moderate precipitation early Thu and again Fri

Hazardous Mountain Travel due to snow and blowing snow due to strong gusty winds. Greatest impacts for Sierra late Thu into Fri

Strong gusty winds Thu

- High Threat
- Moderate Threat
- Slight Threat

# Days 1-3 Precipitation Forecast

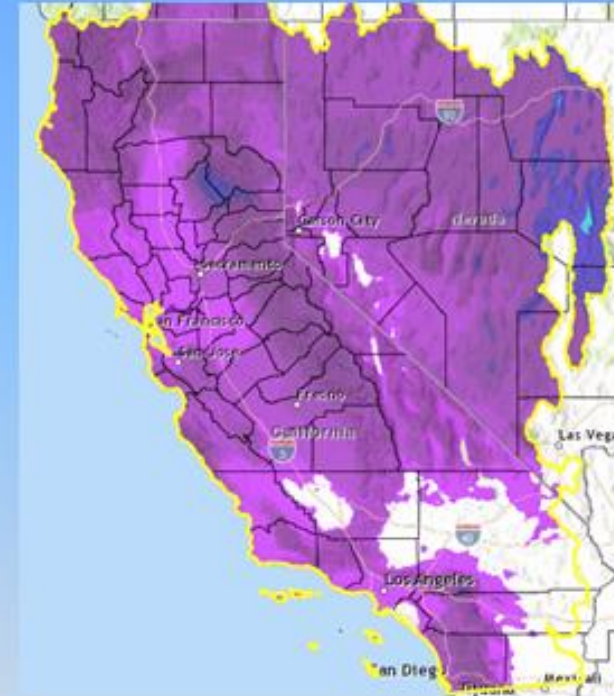

Precipitation (inches)

Thursday

Friday

Saturday

**Rain/high elevation snow will continue with periods of precipitation also across southern CA late this week. Additional precipitation appears likely toward the middle of next week**

# **WEATHER SYNOPSIS BY REGION**

## **NORTHERN CALIFORNIA**

Liquid water amounts have been impressive with the current storm system with widespread 1 to 3 inches observed. Stormy weather will continue through Friday with some residual lighter showery impacts into Saturday. Snow levels will vary but generally lower to between 3,000 to 4,000 feet. Gusty southerly winds will impact the region Thursday into Thursday evening with general gusts between 30 to 40 mph but locally higher values would be found across the highest ridges across the north and east.

There is a little more clarity that drier conditions would affect the area Sunday and Monday although can't rule out a stray light shower over the higher peaks. The wind flow looks to be on the lighter side.

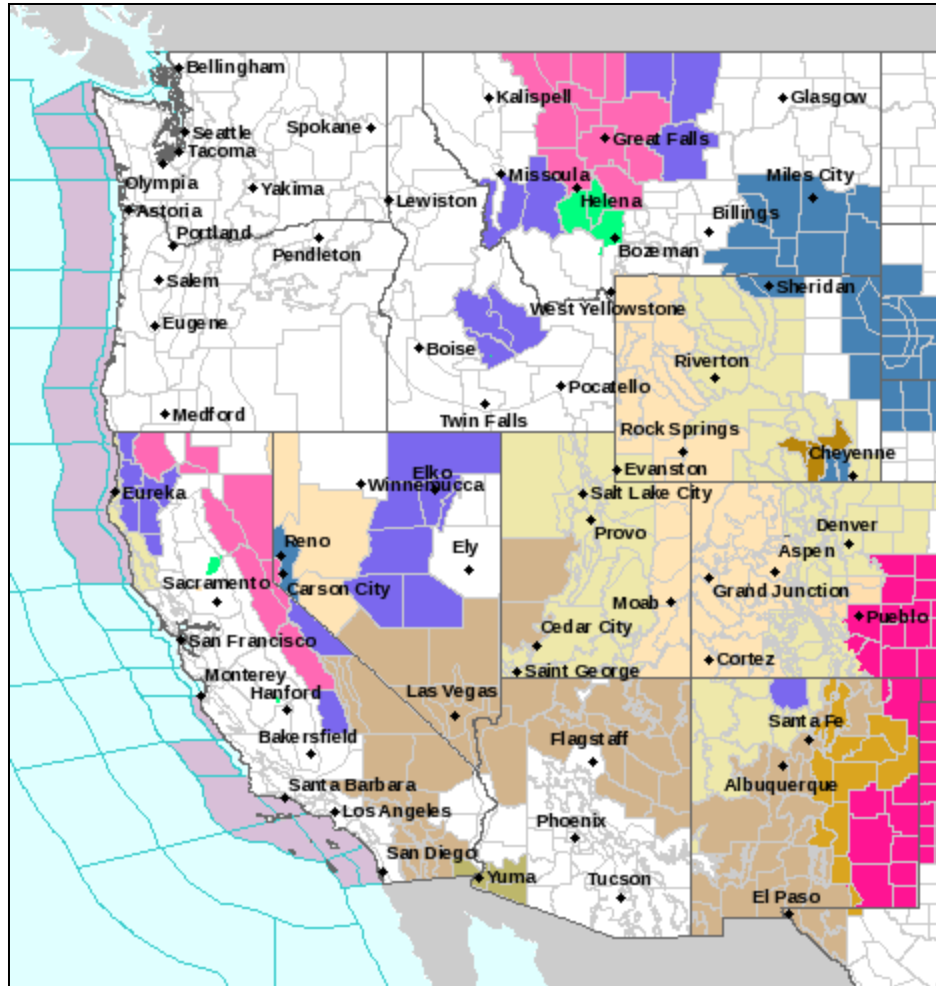

Still looking at a Pacific low impacting the area during much of next week although the track of the low remains uncertain. Tuesday through Friday is an uncertain period but expect some unsettledness including precipitation, cloud cover and cooler temperatures. Precipitation amounts at this time don't look to be nearly as much compared to the current stormy period.

## **SOUTHERN CALIFORNIA**

Scattered showers will continue to move across the region through Saturday afternoon as a storm off the coast of the Pacific Northwest moves slowly southeast and inland across Northern California. Most locations will receive an additional quarter inch to an inch of rainfall, but the Sierra will receive an additional 1 to 2 inches of rainfall with this storm. The snow level will be mainly between 5,000 and 6,000 feet, but it will drop to between 4,000 and 5,000 feet Saturday. South to west winds of 20 to 30 mph will continue to surface across the wind prone mountain and desert locations through Saturday evening. Temperatures will be below normal and cool a couple degrees each day through Saturday. Maximum temperatures will be in the 40s to low 50s across the mountains and mid 50s to mid 60s in the valleys today. A weak ridge of high pressure will bring a slow warming and drying trend to the region Sunday and Monday. Winds will be light Sunday and Monday. Another potential storm may affect the region Tuesday and Wednesday of next week, with more precipitation and strong south to west winds.

# Cal OES LAW ENFORCEMENT MISSIONS

## Cal OES Law Missions

- **2018-LAW-45655, 03/14/18, 0634 hours,** The International Emergency Response Coordination Center (IERCC) reported a SPOT activation on the Pacific Crest Trail in San Diego County, north of Hauser Rd., southwest of Morena Village in the state park. We have been unable to contact the Registered Owner (R/O) thru his cell phone. His emergency contact stated he began his solo hike on 03/10/18 at Campo with no time frame or destination. The R/O is 79 years old, has a pacemaker, and is a stroke survivor taking aspirin as a blood thinner. A full description of the R/O was provided to the San Diego County Sheriff's Dept. who dispatched deputies. **Mission Ongoing.**

# Cal OES MISSION TASKING

## Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties.
- **2018-Southern-44905:** Communications support, Baker to Vegas Annual Challenge Cup, San Bernardino County (Coordinating)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
